

Thinking about...

Earning a PMP® Certification?

Are you a project manager looking to **enhance your ability to successfully lead and direct projects** and increase your earning potential?

Would you like to be part of a group of recognized professionals in the field? Pursuing your Project Management Professional (PMP®) certification will allow you to achieve these goals.

The PMP® credential is a **globally recognized certification** for project managers. The PMP® demonstrates that you have the experience, education, and competency to manage projects.

FAA Corporate Learning and Development has a wide range of e-learning assets you can use anytime to help you earn your PMP®. Here are just a few of the many online tools available to you.

Did You Know?

Project managers working towards PMP certification must complete 35 contact hours as a prerequisite.

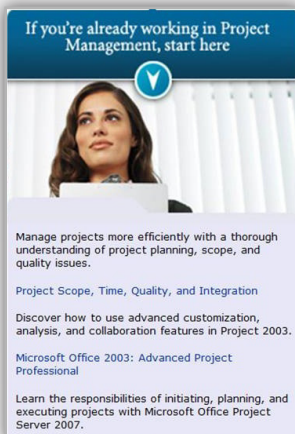

Current PMPs must earn 60 Professional Development Units every three years to maintain certification.

VISIT THE PROJECT MANAGEMENT KNOWLEDGECENTER ONLINE

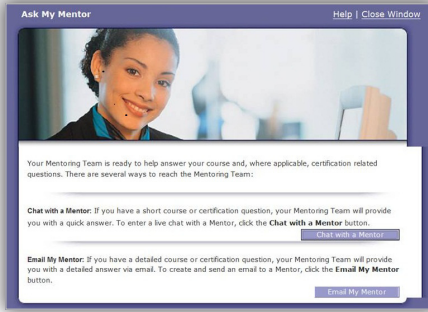

Web portal

- The Project Management KnowledgeCenter is a web portal that collects the best project management-related content and training.
- This is your one-stop website for learning project management concepts and skills.
- Practice taking the certification test and improve your scores.

Learning Roadmaps

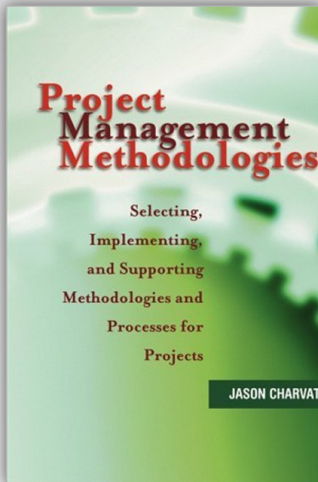

- Taking the first step is often the most difficult part of starting a new venture. **Learning Roadmaps** make the process easy by laying out a plan for you to follow if you want to pursue PMP® certification.
- Roadmaps list a wide variety of recommended courses from Project Management Overview to Core PMI® Values and Ethical Standards.
- You have some options when it comes to completing the coursework:
 - Take the online courses in the recommended order
 - Combine the coursework with targeted reading
 - Complete the courses and then refer to the reading list

Ask My Mentor

- Allows you to chat online with an experienced professional.
- If you have a more detailed question, you can email it and receive a detailed answer.

Managing Projects Within Organizations

Web-based training
Found in eLMS

Length: 2 Hours

Advanced Resource Management with Project 2010

Web-based training
Found in eLMS

Length: 1 Hour

- Covers **advanced resource and scheduling adjustments**, such as how to delay task start dates and apply predetermined work contours to manage assignments.
- Includes several methods for leveling resources and correcting over-allocation issues, including Project's built-in resource leveling tool.

TestPrep Project Management Professional (PMP) PMBOK® Guide Fourth Edition Aligned

Web-based training
Found in eLMS

Length: 4 Hours

- Includes a bank of multiple-choice questions to help you practice for the PMP exam.
- Tracks your progress, recording your first scores for each topic area as well as your highest score and tracks the time you spend on each test.
- Choose to take practice tests in either "assessment" or "certification" mode:
 - **Assessment mode:** You receive feedback after answering each question.
 - **Certification mode:** You do not receive feedback during the practice test; however, you can access feedback to your answers once you have completed the exam.
